EDUCATION

FACULTY OF TECHNOLOGY, UNIVERSITY OF DELHI

2024 - 2028

B.Tech, Blockchain, Cybersecurity & Machine Learning

Applied cryptography, ethical hacking in Linux, operating systems, computer networks, theory of computation, AI/ML, digital image processing

DAKSH GURUKUL, IIT GUWAHATI

2025 - 2026

Credit-linked Data Science certification, year-long

THE BADHANI SCHOOL, PATHANKOT

Class 5 - 12

House Captain and valedictorian. Awarded the Red Coat. Captain, football and volleyball.

SELECTED WORK

AEGIS-TENSOR SECURITY × MACHINE LEARNING

2026 — now

Is this model file safe to load? One verdict, before a single byte of it runs.

Python · safetensors · GGUF · ONNX · pickle VM · SARIF

ATHENA CLINICAL EVIDENCE GRAPH

2026

A second opinion for rare cancers that cites its sources instead of guessing confidently.

Python · FalkorDB · Cypher · CIViC · PubMed · AutoDock Vina

WEAVR FORECAST BLENDING · SMART INDIA HACKATHON

2026

Weigh every rainfall model by how much it has earned, region by region and lead by lead.

Python · xarray · Zarr · EMOS · BMA · GraphCast · IFS-ENS

SYSCV LINUX INTERNALS

2026

Watch a C program talk to the kernel, one system call at a time.

Go · ptrace · Docker · WebSockets · React Flow · Monaco

BRAHM-KOSH

DEVELOPER TOOLS

2026

A static-analysis engine and 3D map that shows what breaks if you change a file. No LLM calls.

Python · ast · click · Three.js · SSE

WAIT ZERO

HEALTHCARE SOFTWARE · TEAM OF SIX

2026

Live tokens, emergency interrupts and offline-first booking for clinics on unreliable networks.

Node · Express · MySQL · React · Flutter · SQLite

TRINETRA

AGRI-TECH · HACKATHON PROTOTYPE

2026

Satellite crop-health checks, a demo price model and soil advice in local languages, in one farmer dashboard.

FastAPI · Next.js · PyTorch · Earth Engine · Gemini

VIDEO-TRACER

2026

From raw video to a trained YOLO tracker with trajectories and ROI tripwires.

STOCK ANOMALY

2026

Unsupervised anomaly detection on equities where most of the code exists to prove nothing sees the future.

SKILLS

LANGUAGES

Python, C, Go, TypeScript, JavaScript, SQL, MATLAB, VHDL

SECURITY

Model-file and pickle analysis, Linux ptrace, sandboxing, applied cryptography

MACHINE LEARNING

PyTorch, scikit-learn, CNNs, ViTs, time-series forecasting, forecast calibration

SYSTEMS

Docker, WebSockets, FastAPI, Node, Express, SQLite, MySQL, PostgreSQL
